Bright

Cal

Calcium Citrate Malate 500 mg + Magnesium Hydroxide 100 mg + Vit D3 200 IU

The highest absorbable Calcium

Indications

- Pregnancy and Lactation
- Post Menopausal Osteoporosis

	Calcium Carbonate	Calcium Citrate	Bright Cal Calcium citrate malate
Chemistry	Mineral Source	Calcium salt of citric acid	Calcium Citrate chelated with malic acid
Solubility	Insoluble in water	Sparingly soluble in water	Easily soluble in water
Absorption	22% of CaCO ₃ is absorbed normally, dependent on gastric pH & food	2.5 times faster than CaCO ₃ independent of gastric pH	45% of Ca is absorbed from CCM, independent of gastric pH
Bioavailability	CaCO ₃ reduces gastric pH, thereby reducing absorption of other nutrients like iron	Does not block iron absorption	Ability to ionize easily makes it a highly bioavailable compound

Milk Protein + Cow Colostrum

Nutrabion

Protein Powder

Essential Amino Acids Protein Vitamins Minerals

Available in two Flavours

1. Vanilla

2. Chocolate

3 Simple steps to make delicious drink
with Nutrabion

Take a glass/mug of
luke warm water or milk (200-300 ml)

Add 2-3 heaped (10g) tablespoonful
of Nutrabion

Add sugar if required as per your taste
and stir it to make refreshing drink

Nutra

Introducing

A Breakthrough Combination In **PCOS**

SAN-PCO

Myo-Inositol 550 mg + D-Chiro-Inositol 13.8 mg + Metformin Hydrochloride 500 mg
+ L-Methylfolate Calcium 0.5 mg + Mecobalamin 750 mcg **Tablets**

For Better Fertility Outcomes

Metformin Hydrochloride

- ◆ Control blood glucose level
- ◆ Improves insulin sensitivity

Myo-Inositol & D-Chiro Inositol

- ◆ Improves glucose uptake by cells
- ◆ Normalises follicle growth and maturation
- ◆ Promotes ovulation
- ◆ Reduces obesity

Mecobalamin & L-Methylfolate

- ◆ Reduces Hyperhomocysteinemia
- ◆ Improves blood flow to the ovary
- ◆ Ensures follicle growth and egg health
- ◆ Facilitates ovulation

Introducing

For distinct outcomes in ovulation induction

R_x

KERIFA 2.5

Letrozole 2.5 mg Tablets

Effective Stimulation... Optimal Growth

Reliable choice in Azoospermia

Improved Spermatogenesis

Variables Examined	Before Treatment	After Treatment
Sperm concentration (sperm number/ml)	0	65000 (40000-90000)
WHO class a + b motile sperm (%)	0	8.7 (6.2 - 12.6)

INFERTILITY | PCOS | OVARIAN STIMULATION FOR IVF/ICSI
OVULATION INDUCTION IN INTRAUTERINE INSEMINATION

Kerifa

Freedom from the misery of painful cramps... **INCREDIBLY**

R_x

NEUTRAPAIN

Drotaverine Hydrochloride 80 mg + Mefenamic Acid 250 mg Tablets

In

- ◆ Dysmenorrhoea
- ◆ Post-surgical pain
- ◆ Procedures such as IUCD insertion, Hysteroscopy, Endometrial biopsy, D & C

The synergistic anti-spasmodic, anti-inflammatory

Devoid of anticholinergic side effects unlike dicyclomine

No blurring of vision

No palpitations

No drowsiness

- ◆ Synergistic combination, provides comprehensive relief of pain
- ◆ Effective in relieving pain during hysteroscopy and endometrial biopsy

N-Pain

For Healthy Pregnancy

For Oral as well as
vaginal use

\mathcal{R} PRAN-ALOE

Natural Micronised Progesterone Soft Gelatin Capsules 200 mg

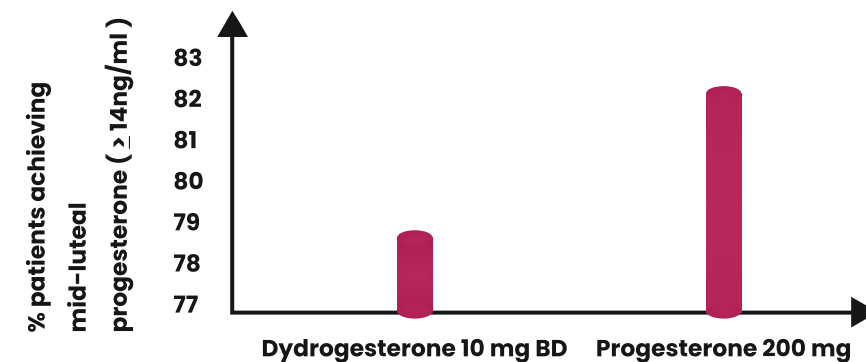

◆ Indications

- ◆ Luteal Phase Deficiency
- ◆ Premenstrual Syndrome
- ◆ Habitual / Threatened Abortion
- ◆ Postnatal Depression
- ◆ Dysfunctional Uterine Bleeding

• **MHRA** recommends Serum Progesterone levels $\geq 14\text{ng/ml}$ in the mid-luteal phase for supporting pregnancy adequately ¹

Superior to Dydrogesterone in achieving mid-luteal progesterone $\geq 14\text{ng/ml}$ ²

In LPS Offer her the convenience of Sustained Release **PROGESTERONE**

MOZOCLAV

morning sickness
shouldn't
disturb
pregnancy

Doxylamine Succinate 20 mg + Pyridoxine hydrochloride 20 mg + Folic Acid 5 mg Tablets

First Line Therapy for Nausea & Vomiting of Pregnancy

Doxylamine Succinate

-Ethanamine based antihistamine potent anticholinergic

Pyridoxine

-Functions as coenzyme in amino acid, carbohydrate and lipid metabolism.

Folic Acid

-Important during periods of rapid cell division and growth such as infancy and pregnancy.

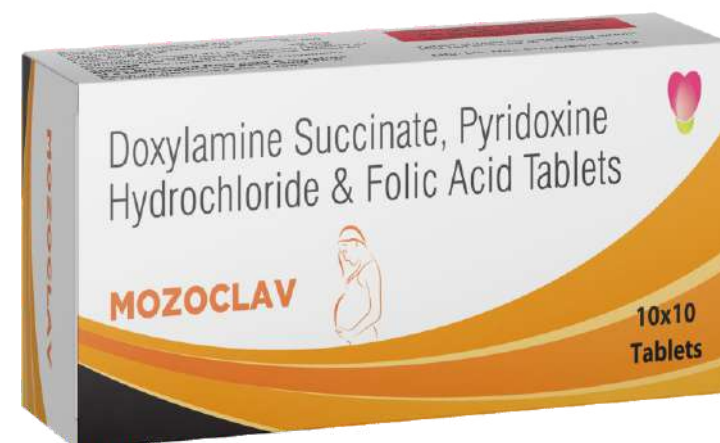

Indications

Nausea

Vomiting

Morning Sickness

Due to Hyperemesis Gravidarum

Best Aid for Good Mornings
With Pleasant Motherhood

For Prompt Relief from Hyper acidity, Heartburn & GERD

NERTH-O

Pantoprazole Sodium 40 mg +
Ondansetron Hydrochloride 4 mg Tablets

Fast Acting – Longer Lasting

Pantoprazole: A Fast Acting PPI

- Inhibits Proton Pump – The final stage in acid secretion
- Reliable acidity control for 24 hours
- No effect on microsomal enzymes – Free from drug interaction

Ondansetron: Dual Protection

- Increases LES pressure
- Promotes peristaltic movements
- Free from CNS side effects unlike metoclopramide

◆ During

- ◆ GERD and peptic ulcers
- ◆ Chronic drug or radiotherapy
- ◆ Nausea, vomiting and dyspepsia
- ◆ Surgical procedures
- ◆ Ideal during ulcer therapy

**More Powerful
More Convenient**

PINK FER-ARGI **SACHET**

L-arginine 3 g + Zinc 10 mg + Folic Acid 200 mcg

In management of IUGR, Preeclampsia, Olygohydramnios

L - Arginine

-The precursor of nitric oxide

Zinc

- Vital trace mineral for optimal foetal growth.

Folic Acid

- Essential vitamin for cell division, Enhances maternal -
placental - foetal blood circulation.

- ◆ Ensures complet absorption
- ◆ Assures dosing convenience
- ◆ Promises effective out come
- ◆ Provides economy on long term treatment
- ◆ Erectile Dysfunction in men
